INVESTOR OF AN PHAT HIGH-TECH INDUSTRIAL PARK
AND AN PHAT 1 INDUSTRIAL PARK

PIONEERING TO MEET THE NEEDS OF DEVELOPING INDUSTRIAL PARK ECOSYSTEM

INTRODUCTION

An Phat High-Technology Industrial Park Joint Stock Company (An Phat Complex) is an industrial real estate subsidiary of An Phat Holdings which has nearly 20 years of manufacturing experience in the field of high-tech and environmentally friendly plastic products.

An Phat Complex thoroughly understands the expectations of investors in seeking a “nest” to develop manufacturing and business. Therefore, we constantly strive to upgrade our one-stop services and industrial ecosystem to serve customers, in line with our spirit of “INVEST WITH TRUST, TOGETHER WE GROW”.

Why choose An Phat 1	14-15

An Phat Holdings was established in 2002. With the constant efforts of every employee and the power of technology, we have marked our name on the map of leading enterprises in the field of high-tech and environmentally friendly plastics in Southeast Asia.

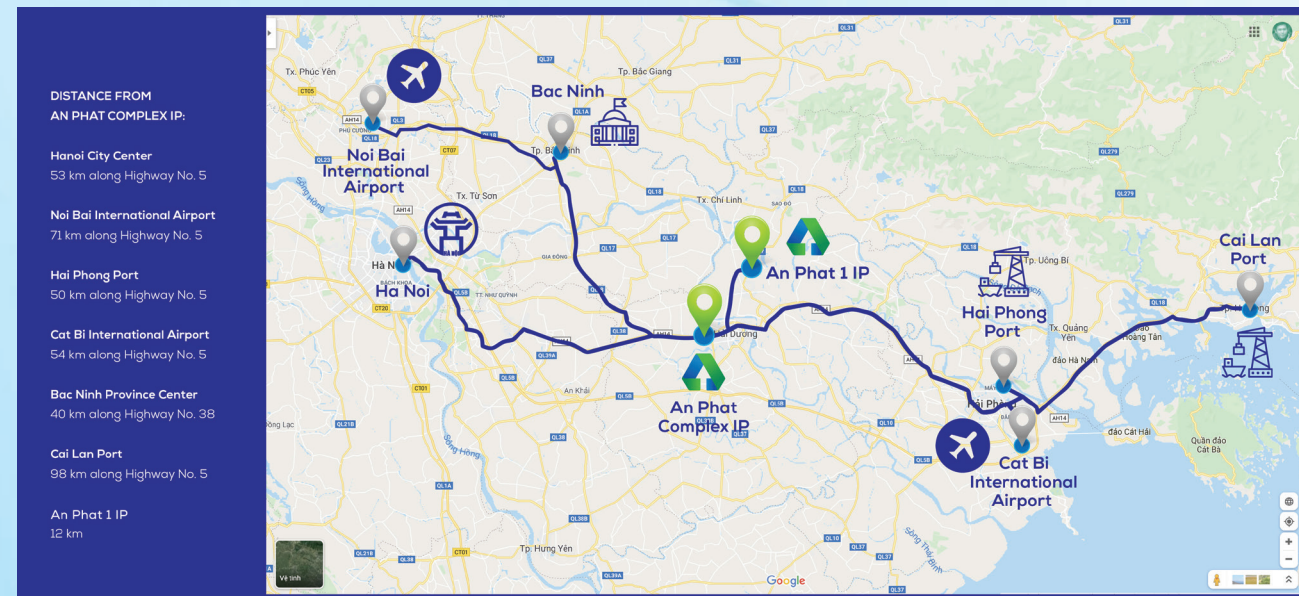

Currently, An Phat Holdings has 18 subsidiaries, 15 factories, and up to 70 export markets. We mainly work on compostable materials and products, packaging, engineering and building materials plastics, molding and precision engineering, raw materials and chemicals for the plastic industry, and industrial real estate.

Grasping the global green shift trend, An Phat Holdings has set a goal to pioneer in developing high-tech and environmentally friendly products. We not only heavily invest in the segment of compostable materials and products but also focus on creating a balancing industrial real estate ecosystem towards the sustainable development. Presently, our journey has become more meaningful, all efforts are towards the highest goal: to build up a green future for the community.

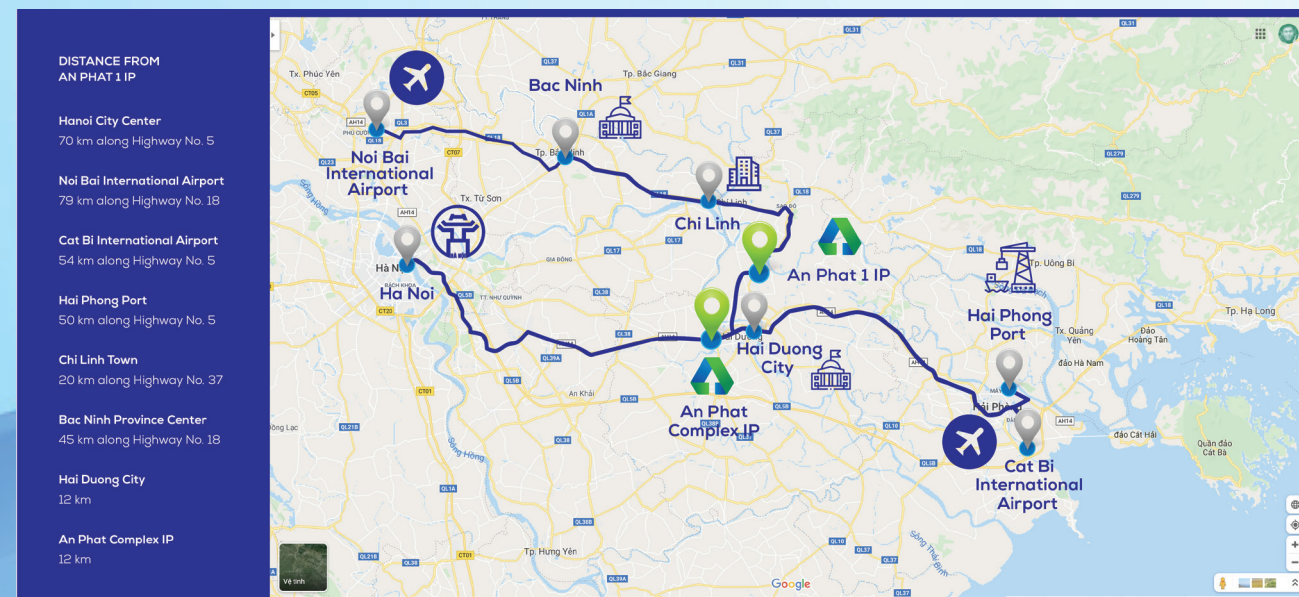

OVERVIEW

An Phat High-Technology Industrial Park Joint Stock Company (An Phat Complex) currently possesses 02 projects:

AN PHAT HIGH-TECH INDUSTRIAL PARK (46 ha)

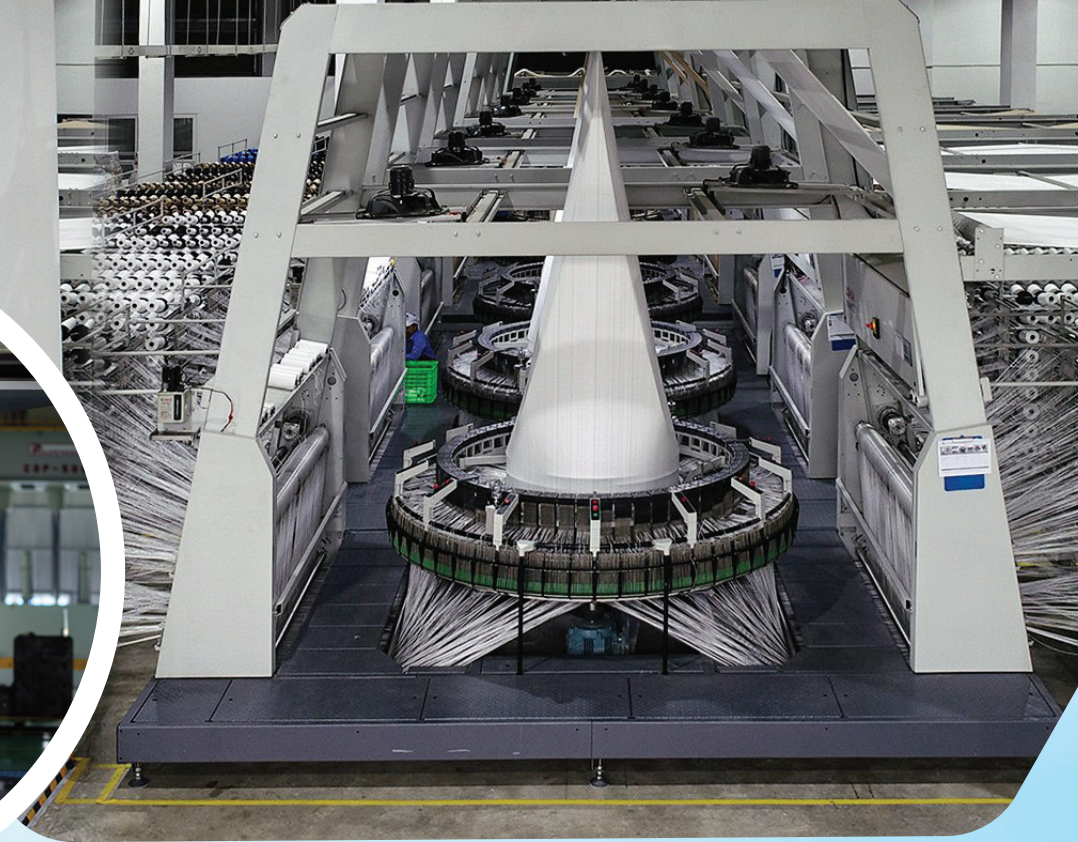

KM 47, NATIONAL HIGHWAY NO. 5, VIET HOA WARD, HAI DUONG CITY, HAI DUONG PROVINCE

AN PHAT 1 INDUSTRIAL PARK (phase 1: 180 ha)

(FORMERLY QUOC TUAN - AN BINH)

KM 69, NATIONAL HIGHWAY NO. 37, NAM SACH DISTRICT, HAI DUONG PROVINCE

Foreseeing the market demand, in 2018, An Phat Holdings decided to buy the abandoned Viet Hoa Industrial Park for more than 10 years. With proper management thinking and synchronous investment strategy, the industrial park has been revived into An Phat High-Tech Industrial Park. After 2 years of transforming into a complex of high-tech industrial parks and developing one-stop services to support favorable investment for businesses, An Phat Complex has become a destination for building factories of various foreign investors in Hai Duong province in particular and in Vietnam in general. At the moment, An Phat High-tech Industrial Park has reached an occupancy rate of 89% with a total expected registered investment capital of up to **VND 1,000 billion (~ USD 46.8 million)**.

Following the success, in early 2021, An Phat Complex continued to receive good news when the Investment Policy of An Phat 1 Industrial Park project (formerly Quoc Tuan - An Binh) was approved by the Deputy Prime Minister and the Investment Registration Certificate was issued by People's Committee of Hai Duong Province. An Phat 1 Industrial Park is planned on an area of 180 hectares at Km 69, National Highway 37, in the territory of 3 communes including Quoc Tuan, An Binh and An Lam of Nam Sach district, Hai Duong province, with a total investment of nearly **VND 1,950 billion (~ USD 83 million)**. An Phat Complex has signed a development cooperation agreement with Actis, a leading global investor in sustainable infrastructure in which Actis invested more than USD 20 million in An Phat 1.

With the capacity of the experienced management and the advantages of the industrial ecosystem built and sustainably developed by An Phat Holdings, An Phat Complex will help investors improve their business efficiency and open up various comprehensive cooperation opportunities.
